

Invitation to DATEX II FORUM

ITS enabled by DATEX II

5TH DATEX II FORUM on 23 - 24 May 2018 in Utrecht (NL)

Curious to know how DATEX II enables ITS?

Interested to know how **you** can benefit?

Eager to present your experiences?

Want to know the DATEX II road ahead?

For whom?

Both new and experienced

- managers
- information architects
- software developers
- traffic engineers / system users
- ITS advisors

from road authorities (motorway, urban, interurban), service providers, map makers, ITS industry, C-ITS, knowledge institutes

DATEX II FORUM 2018

Program highlights

- System users, software developers, information architects as well as policy and decision makers will be guided through the new **DATEX II version 3**
- You will find your way in the **new possibilities, benefits and operation of DATEX II**
- The relation between **DATEX II** and **C-ITS and Automated Driving** will be explored in the context of current developments and existing roadmaps
- With C-ITS and Automated Driving now maturing, the **added value of DATEX II** will also increase **for the Urban domain**
- The Forum will allow the **Urban environment** to be **more involved** in the DATEX II roadmap
- **Policy and decision makers** are encouraged to **discuss the national and regional governance of profiles**, while **software developers** and **information architects** focus on **data structures, profiles** and the implementation of **name spaces**

Breakthrough with LEF Future Center

LEF Future Center offers a wide variety of diverse working environments and professional guidance. A session at LEF is like nothing else you have experienced before. This results in new ideas and insights which will be concrete and geared towards producing results. This way of working guarantees a low threshold environment from which both new and experienced users can benefit. Visit the [website](#) for more information about the LEF Future Center!

DATEX II Implementation Arena

Bring your most impressive implementation of a DATEX II supporting system to the DATEX II Implementation Arena and win! Showcase your implementation in a small booth in any way you want and impress the attendants. At the plenary closing session, the winner will be announced.

Your participation

Come and tell the whole community about your experiences with DATEX II! Ask for ideas, share solutions about the challenges you face with the DATEX II community and inform us about your requirements. At the Forum, there will be numerous possibilities to come to a fruitful exchange. What do you have to propose? Be creative! Why not get away from the classical power point? Think of a pitch, interviews, small group discussions, and more. We'll help you with finding the best way to boost your proposal. Send in your ideas to userforum@datex2.eu before the 1st of March 2018.

Practical info and registration

The Forum will be held in **Utrecht, The Netherlands**, at the Rijkswaterstaat LEF Future Center, on Wednesday 23 and Thursday 24 May 2018. We start at 11.00h on May 23rd and the Forum ends at 15.00h the next day. Registration will be opened in January 2018. The registration fee is € 150.

For further information, updates and the Forum programme, do not hesitate to visit our [website!](#)
