

Nordic Mobile Telephony changed the way people communicate. Nordic Mobility Innovation Platform will change the way people move.

- NMIP will create a single, standardized MaaS market in the Nordics
- NMIP project is structured in three tracks:
 1. Roaming MaaS across the Nordics
 2. Standardized, pan-Nordic open market
 3. Knowledge sharing and collaborative innovation
- Broad collaboration between Nordic project on data sharing, municipalities, public transportation authorities, private companies and research institutes
- Funded by Nordic Innovation, first stage completed, second stage in 3Q19-2021
