The MODI project (<https://modiproject.eu/>) has the pleasure of inviting you to a **workshop to discuss and explore the national strategies for automated transport** within the MODI transport corridor, encompassing Netherlands, Germany, Denmark, Sweden, and Norway. With a primary emphasis on logistics, this workshop provides a unique opportunity to contribute valuable input to the public decision-making processes that will shape the future of automated road transport in the years to come.

**10:00 Doors open**

**10:30 Welcome and Presentation of National Strategies/Roadmaps for Automated Transport.**

National road authorities from MODI countries will present their perspectives on strategies or roadmaps for automated transport: Norway, Sweden, Denmark, Germany, Netherlands.

**11:45 Main findings from MODI T4.2: Develop optimal design of physical and digital infrastructures for public roads.**

**12:00 Lunch**

**13:00 Pitch from Industry Stakeholders**

A 2-minute elevator pitch from other industry stakeholders, providing their perspective on the expectations and industry needs from the public strategy processes on automated transport.

**13:30 Workshop**

Engage in group discussions followed by plenary sessions on each question.

**Question 1 - Stakeholders and Responsibilities:**

*Assuming we agree that realizing the full benefits of AVs requires cooperation across sectors and actors. What are the distinct responsibilities of different stakeholders?*

**Question 2 - The Role of Government:**

*How should the government contribute to and facilitate the development of infrastructure for automated transport? What specific actions should the government take in this regard?*

**Question 3 - Next Steps:**

*Considering the insights from discussions on national strategies, what are the most important actions needed in the next 2 to 3 years? Additionally, what concrete problems and challenges must be solved to propel us forward?*

**15:20 Closing remarks**
